

Schedule Overview

Sunday, September 6

9:00 - 9:10 am	Opening remarks
9:10 - 10:10 am	Keynote speech <i>Prefrontal cortex and its contribution to free-choice decision-making</i> Invited speaker: Prof. Shintaro Funahashi (Kyoto University)
10:10 - 10:40 am	Oral presentation <i>Stimulus statistics alter the receptive field structure in macaque V1</i> Local speaker: Prof. Chun-I Yeh (NTU)
10:40 - 11:00 am	Coffee Service
11:00 am - 12:00 pm	Keynote speech <i>Neural mechanisms underlying the effects of rewards on human long-term memories</i> Invited speaker: Prof. Takashi Tsukiura (Kyoto University)
12:00 - 12:30 pm	Oral presentation <i>Neural representations of integrated information in human working memory</i> Local speaker: Prof. Tsung-Ren Huang (NTU)
12:30 - 14:20 pm	Poster session Lunch break
14:20 - 15:20 pm	Keynote speech <i>Behavioural and brain imaging studies on human visual motion processing</i> Invited speaker: Prof. Hiroshi Ashida (Kyoto University)
15:20 - 15:50 pm	Oral presentation <i>Hierarchical processing for perceptual information in the ventral stream of the occipital cortex</i> Local speaker: Prof. Chien-Chung Chen (NTU)
15:50 - 16:10 pm	Coffee Service
16:10 - 17:10 pm	Keynote speech <i>Visual cognition by integration of object and ensemble representations</i> Invited speaker: Prof. Jun Saiki (Kyoto University)
17:10 - 17:40 pm	Oral presentation <i>Spatially-specific modulation of early visual activity when searching for a perceived or remembered target</i> Local speaker: Prof. Bo-Cheng Kuo (NTU)
17:40 - 18:00 pm	General discussion and Closing remarks Chair: Prof. Su-Ling Yeh and all speakers
